## PRINCE COMES FOR HELP

Prince the day after we got him. Although we were told his feet got trimmed last week I had my farrier take a look. Very unbalanced and not a good trim. He also got wormed. Got the dawn out with some warm water and proceeded to clean his sheath. It was filthy! He should be able to pee with no problem as I was able to get 2 good size beans out. He was pretty swollen and lots of nasty crud embedded around those beans.

### Oct 14

(right) 10 days on Thrive, hay, Himalayan salt, and Nickermaker treats. Prince was checked over by the vet today. Heart and lungs sound great. His eyes are ok. I keep a fly mask on him to protect the wounds and prevent any sunburn. I am using Mederma on his scars on his face.

## HANK GETS NEW HOME!

(left) Hank enjoying some treats before loading up and going to his new home. He will be missed here at the rescue but will have friends at his new home. One is Popcorn a donkey.

Quote from his new owner: "I changed his name to Harry, he is too cute, he is very smart, he has learned if he eats in the pen with old Monty no one bothers him, goes in all by himself and waits for me to open the gate when Monty is done."

Because Our Horses  
Are Family

The Rescue only feeds THRIVE FEED! Many of the older Equines have little or no teeth. Thrive can actually melt in their mouth to provide complete nutrition! Its great for young & old to grow strong, healthy, muscular bodies.
